

SCIENTIFIC PROGRAMME

Friday, 7th October

14:00 Registrations

18:00: Opening Ceremony

Saturday 8th October

8:30 – 10:15

Auditorium

Plenary Session: Conferences Functional Neurosurgery & Vascular (15 min each)

Moderators: Servadei F, Amzar Y, Mahfouf L

Neurosurgery for spasticity- State of the art. **Mertens P**, France

Can ablative procedures solve our main worries in functional neurosurgery ? **Abdennebi B**,
Algeria

Radiofrequency thermocoagulation in the management of trigeminal neuralgia .**N. El Abbadi**,
Morocco

Epilepsy surgery: results after 5 years of practice and prospects. **Morsli A**, Algeria

Surgery of anterior communicating artery aneurysms. **El Azhari A**, Morocco

Classification and treatment options of cranial dural arterio-venous fistulas. **Kiris T**, Turkey

10:15 – 10:40

Coffee Break

10:40 – 11:00:

Auditorium

Symposium Leica: Use of intraoperative fluorescent dyes for guiding tumor resection.
Signorelli F

11:00 – 12:30

Auditorium: Oral presentations functional neurosurgery & vascular (6 min each)

Moderators: Melhaoui A, Aichaoui F, Guerbouz R

Robotics in neurosurgical stereotactic interventions: oblique intra insular electrodes implanted of patients with epilepsy. **Affif A**, Neurosurgery Department Neurological Hospital University Lyon

Stimulation of the motor cortex for chronic neuropathy pain: anatomo-clinical correlations. **Affif A**, Mertens P. Neurosurgery Department A Anatomy Department Lyon 1 University

Retrogasserian balloon compression for treatment of trigeminal neuralgia. Series of 990 cases. **Guenane L**, Mehamli M, Malek A, Khadraoui B, Sayeh A, Sadane M, Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

Long term outcome in trigeminal neuralgia. **Ouaghiri Y**, El Ouhabi A. Neurosurgery Department Hôpital des Spécialités Mohamed V University Rabat

Functional radiosurgery : indications and results. **Melhaoui A**, Arkha, El Ouahabi A, El Khamlichi A. Gamma Knife Radiosurgery Unit, Neurosurgery Department Hôpital des Spécialités Mohamed V University Rabat

Moyen term results in surgery of parkinson disease: series of 56 patients. **Guenane L**, Merouche B, Dahloul Ismail F, Felkaoui A, Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

The effects of internal globus pallidus deep brain stimulation on dystonia. **Merrouche B**, Guenane L, Felkaoui T, Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

Minimally invasive spinal surgery in treatment of spastic paraplegia . (56 cases). **Mahfouf L**, Malek A , Elschamiri AM , Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

Management of intracranial aneurysms in 1st November Hospital of Oran. **Bellebna B**, Nekkache Y, Djafri B, Berdi F, Boudia M. Neurosurgery Department, EHU Oran

The supra clinoid carotid artery aneurysm : problems between diagnosis and surgical difficulties. **Morsli A**, Houari L, Debbou M, Saadi M, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

Carotid-ophtalmic aneurysms. **Houari L**, Meziani S, Debbou M, Morsli A, Benbouzid T. Neurosurgery Department Neurosurgery, CHU Bab El Oued Algiers

Complications of aneurysm clipping. **Houari L**, Morsli A, Debbou M, Touati M, Benbouzid T. Neurosurgery Department, CHU Bab El Oued Algiers

Surgical experience of multiple aneurysms clipping: about 15 cases. **Morsli A**, Houari L, Debbou M, Saadi M, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

Spinal dural arteriovenous fistulas: report of 10 cases. **Yahiaoui M**, Bouaita K, Abzouzi B, Belehreche M, Shabhay Z, Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

12:30 – 14:00

Lunch

14:00 – 15:30

Auditorium

Plenary Session: Skull Base conferences (15 min each)

Moderators: Boukhaled K, Sahraoui M, Tliba S

Skull base surgery: past, present and future. **Elhuseiny H**, Egypt

Keyhole approaches in frontal cranial base surgery. **Delitala A** Italy

Meningiomas of posterior fossa. **Tomasello F**, Italy

Orbital tumors: clinical anatomy aspects. **Benbouzid T**, Algeria

15:30 – 16:00

Coffee Break

16:00 – 17:30

Auditorium: Oral presentations Skull base (6 min each)

Moderators: Jemel H, Ait Bachir M, Fadla H

Neuronavigation and skull base surgery. **Benbouali SA** (1), Nabti Y (1), Hajris (1), Hamdadou (1), Zekad (1), Nebbal M (1), Ziani L (2), Ourrad E (2), Boubendir (2). (1) Neurosurgery Department (2) Imaging Department HCA Algiers

Anterior transpetrosal approach: technical note. **Benafaa T**, Meziani S, Handis C, Daou D Bourou F, Deliba H. Ch, Morsli A, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

Management of skull base tumors at 1er Novembre Hospital of Oran. **Bellebna B**, Derdour D, Bouzekkar B, Ibri HB, Berdi F, Boudia M, Djafri B. Neurosurgery Department EHU Oran

Management of skull base meningiomas. **Himer H**, Ait Bachir M, Izirouel K, Khechfoud H, Asfirane N, Bellahcene H, Hadjadj H, Tliba S. Neurosurgery Department CHU Bejaia

Meningiomas of the anterior cranial fossa: about 31 cases. **Benhayoun O**, Mesbahi T, Ennhaili Z, Chellaoui A, Bertal A, Ibahouin K, Hilmani, Lakhdar A, Naja A, El Azhari A. Neurosurgery Department Ibn Rochd Hospital Casablanca

Orbital solitary fibrous tumors. **Yakoubi B**, Zekour F, Berchiche L, Benbouzid T. Neurosurgery Department CHU Bab El Oued

Study of a series of 130 patients with acromegaly: criteria of good and bad prognosis. **Terrak A**, Khider S, Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

The role of surgery and remission criteria for the follow of 75 patients with acromegaly. **Chitti M**, Bekralas, Hamia F, Atsmania MA, Djennas M. Neurosurgery Department CHU Mustapha

Surgery of pituitary apoplexy: about 23 cases. **Terrak A**, Khider S, Felkaoui T, Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

Which strategy for petroclival tumors? **Benafaa T**, Handis C, Meziani S, Aoudia D, Daou D, Morsli A, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

Retrosigmoid approach in large CPA tumors. **El Ouahabi A**. Neurosurgery Department Hôpital des Spécialités Mohamed V University Rabat

The interest advantage of transmeatal pathway in the vestibular schwannoma surgery by retrosigmoid approach. **Boublata L**, Benlahrache M, Hamrouche N, Boutiah L, Shabhay Z, Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

Posterior approach laterally expanded for foramen magnum lesions. **Benbouali SA** (1), Mahtout A (1), Nebbal M (1), Bouaouina F (2). (1) Neurosurgery Department (2) Intensive Care Department HCA Algiers

Foramen magnum tumors pathologies: report of 10 cases. **Ayachi A**, Nebbal M. Neurosurgery Department HCA Algiers

Venus Room : Videos Session (5 min each)

Moderators: Ismail T, Yakoubi B, Yahiaoui M,

Surgery of low grade glioma in Broca's area without language deficit. **Terrak A**, Tikanouine A, Moula I, Sahnoun O, Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

The trans lamina lateral sub frontal approach for third ventricle craniopharyngiomas. **Boublata L**, Ouchtati R, Benlahrache M, Hamrouche N, Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

Treatment of prolactinomas and the role of endoscopic transsphenoidal surgery. **Bedjou TA**, Terrak A, Alshameri M, Khider S, Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

Colloid cyst of third ventricle operated by endoscopy. **Kaim**, Azzouzi, Mokhbat F, Bouyoucef KA. Neurosurgery Department Frantz Fanon Hospital CHU Blida

Endoscopic edge of a pineal tumor. **Mokhbat F**, Kaim, Bouyoucef KA. Neurosurgery Department Frantz Fanon Hospital CHU Blida

Medulloblastoma biopsy by transventricular endoscopy. **Kaim**, Azzouzi, Mokhbat F, Bouyoucef KA. Neurosurgery Department Frantz Fanon Hospital CHU Blida

Error diagnosis when imaging: case report. **Benaas T**, Sisaber M. Neurosurgery Department Frantz Fanon Hospital Blida

Transcerebello-medullary fissure approach to the fourth ventricle. **Izerouel K**, Ait Bachir M, Himer H, Takbou I, Khechfoud H, Asfirane N, Bellahcene H, Hadjadj H, Tliba S. Neurosurgery Department CHU Bejaia

From V2 to V4. **Ramdani S**, Harchaoui N, Meliani A, Deliba H.Ch. Neurosurgery Department EHS Cherchell

Temporal arteriovenous malformation. **Houari L**, Benafaa T, Aoudia R, Bourou M, Benbouzid T. Neurosurgery Department CHU Bab El Oued

Intraoperative rupture of a temporal AVM. **Ramdani S**, Harchaoui N, Makhetiche A, Meliani A, Deliba H.Ch. Neurosurgery Department EHS ChercHELL

The aneurysm just ruptured, what do you do? **Medhkour A**. University of Toledo Medical Center

Aneurysm of anterior communicating artery twisted form. **Morsli A**, Houari L, Meziani S, Handis T, Kasri R, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

Surgical technique of intracerebral hydatid cyst. **Bellebna B**, Ibri HB, Djafri B, Boudia M, Berdi F, Boutadara M. Neurosurgery Department EHU Oran

Intramedullary schwannoma. **Kouadria R**, Siali I, Derkaoui M. Neurosurgery Department CHU Sidi Bellabes

Technique of the dorsal root entry zone tomy (DREZotomy). **Aichaoui F**, Khadraoui A, Shamiri M, Malek A, Bedjou A, Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

Implantation of surgical electrodes for spinal cord stimulation. **Aichaoui F**, Khadraoui A, Shamiri M, Benseghir M, Sayeh A, Abdennebi. Neurosurgery Department EHS Salim Zmirli El Harrach

Microscopic endoscopic-assisted neurovascular decompression. **Himer H**, Ait Bachir M, Izirouel K, Takbou I, Khechfoud H, Asfirane N, Bellahcene, Hadjadj H, Tliba S. Neurosurgery Department CHU Bejaia

17:30 – 18:30: Executive Committee MANS Meeting

Sunday, 9th October

8:30 – 10:15

Auditorium

Plenary Session: Conferences Endoscopy & Pediatric (15 min each)

Moderators: Ezzat S, Iguertsira M, Lagha N

Neuroendoscopy: past, present and future. **Bouyoucef KA**, Algeria

Endonasal endoscopic pituitary surgery. **Ben Ammar M**, Tunisia

Endoscopic approaches for complex hydrocephalus in the pediatrics. **Shehabeldien A**, Egypt

Lateral ventricles tumors in children. **Choux M**, France

Long term results of treatment of spinal dysraphism. **Kotb M** Egypt

Frameless stereotactic electroencephalography (SEEG) in children: a pediatric series from a unique center. **Scavarda D**, France

10:15 – 10:45
coffee break

10:45 – 12:30

Auditorium

Oral presentations Cranial and spine trauma (6 min each)

Moderators: Mizagri R, Djaafar M, Stambouli A

Management of trauma brain injury in Mascara Hospital: a young team, what could bring?
Benamara S, Ayoun RM, Saifi S, Souiguia B, Bouchakour M. EPH Mascara / CHU Oran

Controversies in the management of traumatic brain injury: decompressive craniectomies, ICP monitoring, with or without hypertonic saline? **Medhkour A**, Abdalla BI. University of Toledo Medical Center

Predictors of outcomes in traumatic brain injury. **Baum J**, Entezami P, Shah K, Medhkour A. University of Toledo Medical Center

Percutaneous puncture in the treatment of chronic subdural hematomas: about 856 cases.
Mechiche Z, Benbettiche S, Smail W, Rezagui A, Mahdaoui R, Mezaache S, Malek KZ, Boukharouba H, Hallaci A. Neurosurgery Department CHU Sétif

Management of subdural collections in Mascara: how do we do?. **Benamara S**, Ayoun RM, Saifi S, Souiguia B, Bouchakour M. EPH Mascara / CHU Oran

Upper cervical spine trauma: series of 20 years experience. **Derkaoui FH**, Bechri H, Louraoui N, El Fatemi N, Maaquili MR, El Abbadi N. Neurosurgery Department Ibn Sina Hospital Mohamed V University Rabat

Cervical spine injury: about 382 cases over a period of 10 years. **Kerrouche H**, Benmouma Y, Bouraoui O, Atsmania MA, Tadjeddine S, Djennas M. Neurosurgery Department CHU Mustapha Pacha Algiers

1st MANS Congress & 31st National Congress of Neurosurgery
October, 7th to 10th, 2016 - Algiers

Prognostic factors in cervical spine injury. **Abboud H**, El Ouahabi A. Neurosurgery Department, Hôpital des Spécialités Mohamed V University Rabat

Changing the tradition is not always a bad thing: using cortical screw versus pedicle screws for lumbar fusion. **Mazagri R**. Marshall Medical School Huntington

Thoraco-lumbar injuries: about 298 cases. **Louraoui M**, El Abbadi N. Neurosurgery Department, Ibn Sina Hospital Mohamed V University Rabat

Management of thoracic and lumbar spine injury: a 22 years experience of a Moroccan center. **Benhayoun O**, Mesbahi T, Ennhaili A, Chellaoui A, Bertal A, Ibhouin K, Hilmani S, Lakhdar A, Naja A, El Azhari A. Neurosurgery Department, Ibn Rochd Hospital Casablanca

Patterns of missile spinal cord injury in Lybia. **Al-waer A**. Ali Omar Askar Hospital Sbea

Venus Room

Oral presentations Endoscopy (6 min each)

El Hage J, Meliani A, Kouadria R

Neuroendoscopy: contribution in intracranial lesions: about a series of 93 cases. **Sebane S**, Tahtouh W, Zitouni B. Neurosurgery Department CHU Batna

Extended endoscopic endonasal approaches to skull base: initial experience in Cairo university. **Elsamman AK** (1), Younes A (2), Lashin H (2). (1) Neurosurgery Department (2) ENT Department Cairo University

Endoscopic endonasal repair of skull base non traumatic meningoceles and encephaloceles. **Bouaita K**, Shabhay Z, Belahrache M, Boutiah L, Ioualalen N. Neurosurgery Department EHS Ait Idir

Evaluating the role of transsphenoidal endoscopic surgery in management of pituitary adenomas with apoplexy. **Maaty HI**. Neurosurgery Benha University

The interest of endonasal approach for sellar and supra sellar tumor resection. **Bouaita K**, Shabhay Z, Ouchtati R, Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

Endoscopic transventricular approach to the third ventricular colloid cyst. **Elsamman AK**. Neurosurgery Department Cairo University

Pathological aspects and cerebral endoscopic surgery for hydrocephalus. **Bouchakour M**, Daoud S, Ayoun AR, Stambouli A, Bambrik S, Guermi N. Neurosurgery Department CHU Oran

Contribution of endoscopy in the treatment of pediatric hydrocephalus. **Daoud S**, Ferrah S, Bambrik S, Bouchakour M. Neurosurgery Department CHU Oran

1st MANS Congress & 31st National Congress of Neurosurgery
October, 7th to 10th, 2016 - Algiers

Management of intracranial arachnoid cysts. **Aboudjabal M**, Sisaber M, Melbouci M, Moula K, Bouyoucef KA, Lalam F. Neurosurgery Department CHU Tizi Ouzou

Endoscopic fenestration in the treatment of arachnoid cysts of the middle fossa. **Derradji H**, Nebbal M. Neurosurgery Department HCA Algiers

FBSS: case series study report about administration of gel-formulated adhesion barrier during endoscopy-assisted adhesion lysis procedures. **Pecora C**, Gambardella G. Cassa di Cura Carmona Messina

12:30 – 14:00

Lunch

14:00 – 15:30

Auditorium

Plenary Session: Conferences Oncology (15 min each)

Moderators: Yedeas M, Ioualalen N, Lalam F

Current concepts in metabolic and functional imaging of hemispheric low grade gliomas in adults. **Solaroglu I**, Turkey

Brain tumor surgery in eloquent areas: brain mapping and other surgical techniques. **Germano I** USA

Surgery of brainstem tumors. **Arraez M** Spain

Treatment strategy for extra-axial benign tumors using combined techniques. **Cornu P** France

Radiosurgery of brain metastases. **El Khamlichi A** Morocco

15:30 – 16:00

Coffee Break

16:00 – 18:00

Auditorium

Oral presentations Pediatrics (6 min each)

Moderators: Bouzoubaa Y, Lekehal M, Sebbane M

Cerebral tumors in children about 150 cases between 2014 and 2016 in EHS Ait Idir. **Boustil K**, Bouchenaki F, Hamrouche N, Benachour MS, Shabhay Z, Ioualalen N. Neurosurgery Department EHS Ait Idir

Pediatric low grade gliomas: diagnosis and therapeutic implications. **Terkmani F** (1), Bakhti S (2), Gachi F (3), Djennas M (2), Bouzid K (2), Amir ZC (1). (1) Pathology Department (2) Neurosurgery Department CHU Mustapha Pacha, (3) Oncology Department CPMC Algiers

Pediatric medulloblastoma: surgical results and prognostic factors. **Milena SC**, El Ouhabi A. Neurosurgery Department Hôpital des Spécialités Mohamed V University Rabat

Different surgical approaches in tumors of the fourth ventricle and around. **Izerouel K**, Ait Bachir M, Khechfoud H, Takbou I, Himer H, Hannou, Bellahcene, Asfirane N, Hadjadj H, Tliba S. Neurosurgery Department CHU Bejaia

Risk factors of posterior syndrome in children. **Tighilt N**, Bakhti S, Benmouma Y, Djennas M. Pediatric Neurosurgery Division CHU Mustapha Pacha Algiers

Target therapy in pediatric brain tumors. **Gachi F**, Louni C, Zehani N, Khettab K, Mahchouch N, Bakhti S, Tighilt N, Terkmani F, Mahiou M, Tateb C. Pediatric Neurooncology Committee Algiers

Hydrocephalus in infants and complications of CSF peritoneal shunts. **Nadji M**, Bouaita K, Kabache M, Boutiah L, Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

The place of ventriculoatrial shunt in the management of hydrocephalus: indications, possible complications and literature review. **Benachour MS**, Boublata L, Bouchenaki F, Boustil K, Hamrouche N, Shabhay Z, Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

Cranial and spinal dysraphism. **Ayoun AR**, Talbi MI, Benfissa K, Houari O, Benamara S, Bouchakour M. Neurosurgery Department CHU Oran

Management of myelomeningoceles: a 25 years surgical experience. Rifi L, El Ouahabi A. Neurosurgery Department, Hôpital des Spécialités Mohamed V University Rabat

Toward reduction of shunt placement in myelomeningoceles. **Bakhti S**, Tighilt N, Benmouma Y, Bekralas H, Atsmania MA, Boumahdi N, Tadjeddine S. Pediatric Neurosurgery Division, CHU Mustapha Pacha Algiers

Management of spinal deformities in newborns in Tizi Ouzou neurosurgery department. **Aboudjabal M**, Melbouci M, Moula K, Saib, Biri, Kacimi. Neurosurgery Department CHU Tizi Ouzou

Dermal sinus in children about 11 cases and literature review. **Bouchenaki F**, Boustil K, Benachour MS, Hamrouche N, Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

Diastematomyelia: surgical treatment in 20 cases. **Meliani A**, Bouali D, Saadi A, Rabia L, Deliba H.Ch. Neurosurgery Department EHS Cherrhell

Filum terminal lipomas about 17 cases and literature review. **Bouchenaki F**, Boustil K, Benachour MS, Hamrouche N, Shabbay Z, Ioualalen. . Neurosurgery Department EHS Ait Idir Algiers

Remodeling surgical technique in craniosynostosis: a series of 30 cases. **Bouali D**, Meliani A, Harchaoui N, Saadi A, Triki H, Deliba H.Ch. Neurosurgery Department EHS Cherrhell

Venus Room

Oral presentations Oncology (6 min each)

Moderators: Ait Benali S, Bellebna B, Kara H

Perfusion MRI studies and stereotactic biopsy results. **Benbouali SA** (1), Haddadi Y (1), Nebbal M (1), Ziani L (2), Ourad A (2), Boubendir (2), Bouaouina F (3). (1) Neurosurgery Department (2) Imaging Department (3) Intensive Care Department HCA Algiers

Frameless stereotactic biopsy for brain tumors. **Si Saber M**, Bouyoucef KA. Neurosurgery Department Frantz Fanon Hospital CHU Blida

Use of preoperative fMRI and intra-operative SSEP-PRT for accurate localization of eloquent brain areas in cortical lesions surgery. **Abdrabo BG**, Atkinson J, Farmer JP. Neurosurgery Menofyia University

Intraoperative ultrasound in low grade gliomas surgery. **Atroune L**, Sakhraoui F, Boumahdi N, Hamia S, Djennas M. Neurosurgery Department CHU Mustapha Pacha Algiers

Intraoperative tasks for awake mapping. **Atroune L**, Rahal L, Loubane H, Hamia S, Boumahdi N, Djennas M. Neurosurgery Department CHU Mustapha Pacha Algiers

Awake surgery for low grade glioma: analysis of postoperative neurological deficits, our experience and literature review. **Ait Benali S** and all. Neurosurgery Department Mohamed VI University Hospital Center Marrakech

Awake craniotomy: first year experience. **Atroune L**, Boulaouad W, Hamia S, Boumahdi N, Guidouche D, Djennas M. Neurosurgery Department CHU Mustapha Pacha Algiers

Lateral ventricles tumors: series of 51 cases and literature review. **Ouchetati R**, Bouaita K, Benlahreche M, Hamrouche N, Boublata L, Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

Colloid cyst therapeutic strategy. **Morsli A**, Meziani S, Houari L, Daou D, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

Ependymomas of posterior fossa: a series of 50 cases and literature review. **Badache K**, Shabhay Z, Boublata L, Yahiaoui M, Bouaita K, Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

Fourth ventricular ependymomas: report of 13 cases and literature review. **Belgacem I**, Rabia H. Neurosurgery Department CHU Tizi Ouzou

Surgical treatment of brainstem tumors: about 6 cases. **Meliani A**, Agguini D, Mati A, Ramdani S, Deliba H.Ch. Neurosurgery Department EHS Cherchell

Intracranial cavernomas: about 60 cases. **Skounti K**, Ibrahim S, Louraoui SM, Bechri H, El Fatemi N, Maaquili MR, El Abbadi N. Ibn Sina Hospital Mohamed V University Rabat

Intramedullary spinal cord tumors: a prospective study. **Kouadria R**, Si Ali. Neurosurgery Department CHU Sidi Bellabes

Spinal canal meningiomas : management of 33 cases. **Ennhaili Z**, Mesbahi T, Benhayoun O, Chellaoui A, Bertal A, Ibahouin K, Hilmani S, Lakhdar A, Naja A, El Azhar A. Neurosurgery Department Ibn Rochd Hospital Casablanca

Spinal neuromas about 17 cases. **Moula K**, Aboudjabal M, Zennouche A, Saidoun L, Ait Hammi S, Allouache F, Saib A, Attouche DJ, Lalam F. Neurosurgery Department CHU Tizi Ouzou

18:00 – 19:00: General Assembly of Algerian Neurosurgical Society

Monday, 10th October

8:30 – 10:15

Auditorium

Plenary Session: Conferences Spine (15 min)

Moderators: Krifa H, Sahraoui K, Khailia S

Spinal tumors: surgical anatomical considerations and long-term evaluation. **Sidi Said A** Algeria

Surgery of cervical disc herniation. **Djennas M** Algeria

Upper cervical spine trauma, diagnosis and management of atlanto-axial instability. **Al-waer A**, Lybia

Traumatic spinal injuries in the north of Palestine: analysis of 181 cases. **Dawarzeh M**,
Palestine

10:15 – 10:45
coffee break

10:45 – 12:45

Auditorium

Oral presentations Spine & Free oral presentations (6 min each)

Moderators: Ghecham C, Sahli LK, Malek KZ

Vertebral osteotomy of sagittal imbalance in the spondylarthropathies. **Azzouz S**. Orthopedic
Surgery Military Hospital Bouchaoui

Cervical spondylotic myelopathy: series of 60 cases. **Benmamar T**, Boustil K, Bouaita K,
Ioualalen N. Neurosurgery Department EHS Ait Idir Algiers

Anterior versus posterior decompression infusion in cervical spondylotic myelopathy: what is
the best approach. **Medhkour A**, Issa BA. University of Toledo Medical Center

360° around the cranio-vertebral junction. **Ramdani S**, Harchaoui N, Morsli M, Bouali D,
Meliani A, Deliba H.Ch. Neurosurgery Department EHS Cherchell

Lateral mass fixation in subaxial cervical spine. **Belloud M**, Tianti M, Benamar Y.
Neurosurgery Che Guevara Hospital Mostaganem

Three-dimensional lumbar spine geometric modeling first phase and prospects. **Lassal K**,
Terrak A, Kadi M, Chikh M, Khider S, Ameer MF, Guenane L, Abdennebi B. Ecole
Supérieure de Technologie Algiers

Neurogenic claudication sustained by lumbar spinal stenosis is a common pathology in
increment in the latest years for increasing of medium age of the life. **Gambardella G**, Pecora
C. Casa di Cura Carmona Messina

Spinal arthrodesis: review of 324 cases. **Ayoun AR**, Benamara S, Bambrik S, Malek H,
Bouchakour M. Neurosurgery Department CHU Oran

1st MANS Congress & 31st National Congress of Neurosurgery
October, 7th to 10th, 2016 - Algiers

Complications of lumbar disc herniation about 253 cases. **Bechri H**, Louraoui SM, Derkaoui FH, Skounti K, El Fatemi N, Maaquili MR, El Abbadi N. Neurosurgery Department, Ibn Sina Hospital Mohamed V University Rabat

Contribution of circumferential arthrodesis in spondylolisthesis surgery: a prospective study of 70 cases. **Meliani A**, Bouali D, Mati A, Habib H, Krimed M, Deliba H.Ch. Neurosurgery Department EHS Cherchell

Outcome analysis for adults with spondylolisthesis treated with lumbar spinal fusion surgery. **Belloud Y**, Gherbi, Dada. EH Benzerdjeb Ain Temouchent

Telemedicine and e-health in Algeria: challenges and neurological emergencies. **Tliba S** (1,2), Sari Z (1), Zerroug M (1), Mammeri-Oussedik W (1), Danoune A (2). (1) Société Algérienne de Télé-médecine et de e-santé (2) Neurosurgery Department CHU Bejaia

Intracranial cysts: from normal to pathological. **Medjek L**. Centre d'Imagerie Youghourta Algiers (12 min)

Prebulbomedullary arachnoid cyst. **Bouaziz M**, Feknous. S. Neurosurgery Department CHU Ibn Rochd Annaba

Protocol for idiopathic intracranial hypertension management. **Bekralas H**, Boulaouad W, Bakhti S, Amzar Y, Djennas M. Neurosurgery Department CHU Mustapha Pacha Algiers

Lumbar subarachnoid-peritoneal shunts in idiopathic intracranial hypertension. **Touati M**, Assoumane I, Lagha N, Daou D, Benabi W, Aoudia D, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

Cranioplasty with titanium plates: our first experience. **Belloud M**, Tianti M, Benamer Y. Neurosurgery Che Guevara Hospital Mostaganem

Closing ceremony

e-Poster Award

E-POSTERS

Jury e-Posters: El Ouahabi A, Arrouf L, Hadj Boussaad H

Brain tumors revealed by spontaneous hemorrhage: report of 2 cases and literature review.

Alshameri M, Aichaoui F, Anissa A, Merouche B, Abdennebi B. Neurosurgery Department EHS Salim Zmirli El Harrach

Glioblastoma: a series of 34 cases over a period of 3 years. **Belgacem I**, Rabia H, Aboudjabal M. Neurosurgery Department CHU Tizi Ouzou

Multiformis glioblastoma; one case report. **Touati M**, Zekour F, Bachir S, Baki N, Bourou F, Benmedakhen N, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

Glioblastoma: symptoms, treatment and prognosis. **Aliout M**, Feknous S, Khemissi W, Boudebza I, Bouaziz M. Neurosurgery Department CHU Annaba

Xerodemapigmentosum associated with glioblastoma: a case report. **Belgacem I**, Rabia H. Neurosurgery Department CHU Tizi Ouzou

An extra axial glioblastoma mimicking a meningioma of the tentorium cerebella: a case report. **Dridi H**, Maamri K, Ghedira K, Abderrahmane K, Bouali S, Kallel J, Jemel H Neurosurgery Department National Institute of Neurology Tunis

Neonatal glioblastoma: case report. **Ennhaili Z**, Mesbahi T, Benhayoun O, Chellaoui A, Bertal A, Ibahouin K, Hilmani S, Lakhdar A, Naja A, El Azhari A. Neurosurgery Department CHU Ibn Rochd Casablanca

Chrodoid glioma of the 3rd ventricle. **El Cadhi A**, Maamri K, Ghedira K, Bouhoula A, Jemel H. Neurosurgery Department National Institute of Neurology Tunis

Pediatric supra tentorial anaplastic oligodendroglioma: a rare tumor in children. **Maamri K**, Driss F, Dridi H, Ghedira K, El Cadhi A, Jemel H, Ben Said I. Neurosurgery Department National Institute of Neurology Tunis

Neurocytoma of the posterior part of the third ventricle: management of a rare localization. **Baki N**, Daou D, Houari L, Debbou M, Aoudia D, Morsli A, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

Intraventricular neuroblastoma: a case report. **Aoudia D**, Daou D, Assoumane I, Morsli A, Houari L, Bachir S, Benbouzid T. Neurosurgery Department CHU Bab El Oued Algiers

About a case of embryonic rare tumor in an infant. **Aboudjabal M**, Moula K, Melbouci M, Takour, Akli, Ayad, Lalam F. Neurosurgery Department CHU Tizi Ouzou

About a rare case of atypical teratoid rhabdoid tumor of central nervous system in an adult: case report and literature review. **Borni M**, Abdelmouleh S, Ben Salah A, Kammoun B, Boudawara MZ. Neurosurgery Department CHU Habib Bourguiba CHU Sfax

Triple brain germinoma location: a rare case. **Debbou M**, Houari L, Zekkour F, Morsli A, Benbouzid. T. Neurosurgery Department CHU Bab El Oued Algiers

Dysembryoplastic neuroepithelial tumors: 2 observations. **Fadla H**, Alioui S, Bouchouachi M, Bounamous K, Martani M, Samai N, Adjabi D, Bouaziz M. Neurosurgery Department CHU Annaba

Primary intracranial myopericytoma: report of one case and literature review. **Abdelmalek A**, Hassani L, Guennine, Attou A, Bouyoucef KA. Neurosurgery Department Frantz Fanon Hospital CHU Blida
